### **DETAILED ACTION**

This action is responsive to applicants' amendment and response received September 19, 2003. Claims 1-3 and 5-11 are currently pending, with claims 5-8 and 11 withdrawn from consideration.

#### ***Response to Amendment***

1. The amendment filed April 15, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Claims 1 and 10 now cite "combinations of zeolite and sodium carbonate" as builders of the invention. Though the specification lists zeolites, silicates, and carbonates as suitable builders of the invention, there is no basis for the specific combination of builders now cited in the claims.

Applicant is required to cancel the new matter in the reply to this Office Action.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1751

3. Claims 1-3, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Harmalker et al, US 5,308,513.

Harmalker et al teach fabric conditioning aqueous liquid emulsions which are wash cycle additives for through the wash use (see abstract). An example of such a composition is a liquid emulsion containing hydroxyethylcellulose polymers and a nonionic surfactant which is added to a granular detergent containing surfactants and pentasodium tripolyphosphate, sodium pyrophosphate, sodium silicate, and sodium carbonate as builders (see examples 2 and 4). As this reference meets all material limitations of the claims at hand, the reference is anticipatory.

4. The rejection of claim 1 under 35 U.S.C. 102(b) as being anticipated by Leitch et al, US 5,753,216 is withdrawn in view of applicants' amendment and response.

5. The rejection of claims 1-3, 9, and 10 under 35 U.S.C. 102(b) as being anticipated by Murata et al, 5,837,666 is withdrawn in view of applicants' amendment and response.

6. The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being anticipated by Khalil et al, US 4,205,063 is withdrawn in view of applicants' amendment and response.

*Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
